PROJECTS

Water for South Sudan Prototype

- Created a prototype using Figma for the redesign of a website for the charity, Water for South Sudan, as a part of a UX Studio Design competition at RIT.
- Conducted user testing on prototype to make changes and establish a final prototype.
- Presented the process and design to a panel of judges and won an honorable mention.

UNIX Tutorial Website

- Designed multiple wireframes on Figma for both mobile and desktop versions of the website.
- Developed responsive website using HTML and CSS to introduce users to the basics of UNIX.

Travel Website

- Created responsive website to present information about a specific city utilizing HTML, CSS, JavaScript, PHP and MySQL.
